

A spader specially designed for use with light tractors with a capacity of 20 to 35 HP.

The Farmax ERP is a spader for light tractors. The great manoeuvrability and low integral weight of the ERP make it highly suitable for use in greenhouse horticulture, flower cultivation and tilling small plots.

Apart from giving perfect rotavation, the popularity of the Farmax ERP is mainly attributable to its ease of operation and sturdy design.

Uninterrupted rotavation

The ERP is fitted as standard with skimmers to prevent the tilled soil from clogging the machine. The machine can be combined with a rotary harrow.

Drive: Single-sided chain transmission

Tractor power: 20 to 35 HP

Power take-off revs: 540 r.p.m.

Advantages

- low power requirement, so suitable for small tractors
- highly manoeuvrable, even in small spaces
- easy to operate
- sturdy, low-maintenance design
- improved yield thanks to improved soil structure

Also available without rotary harrow

540 r.p.m. transmission case

Rotary harrow ensures an optimum bed for sowing

Mechanical adjustment of the rotary harrow

Technical Data

type	operating width	max. operating depth	standard weight	required power kW/HP	number of spades
ERP 90	35.43" - 90 cm	17.72" - 45 cm	573 Lbs - 260 kg	13/18	12
ERP 105	41.34" - 105 cm	17.72" - 45 cm	650 Lbs - 295 kg	15/20	12
ERP 125	49.21" - 125 cm	17.72" - 45 cm	760 Lbs - 345 kg	16/21	12
ERP 140	55.12" - 140 cm	17.72" - 45 cm	870 Lbs - 395 kg	21/28	12
ERP 155	61.02" - 155 cm	17.72" - 45 cm	992 Lbs - 450 kg	22/30	12
