

Every turf surface in top condition with Farmax decompactors.

**FarmaX decompactors are specially designed to aerate (sports) fields with hard turf or compactions in the subsoil.**

The specially designed blades cut to a depth of up to 15.75 inches (40 cm) and are arrayed in such a way that the soil is shaken off to the sides. The blades are fitted on either side with guide blocks to prevent the turf being damaged or displaced.

**Low maintenance, very easy to use**

FarmaX decompactors use a system of fixed blades. This means there are few moving parts, so FarmaX decompactors require little maintenance and are very user-friendly.

**Guaranteed quality for any turf**

Treatment with a FarmaX aerator ensures optimum development of the root system. In this way, you get the grass in top condition and develop a high-quality turf.

## Type DRP-B

The Farmax DRP-B is driven at 540 r.p.m.

## Type LRP-B

The LRP-B is specially designed for heavy-duty work.

This machine has a power take-off thrust of 1,000 r.p.m.

## Advantages

- better aeration of deeper soil layers and hard grass sod
- specially designed blades ensure that the soil is shaken off to the sides
- guide blocks prevent the turf being damaged or displaced

## Types: DRP-B, LRP-B

Transmission: the transmission gearboxes are fitted with differentials.

Aerator blades attached with shearing bolts

Guide blocks

Blades

Option: Pressure roller

## Technical Data

type	operating width	max. operating depth	standard weight	required power kW/HP	number of blades
DRP-B 185	72.83" - 185 cm	15.75" - 40 cm	1,818 Lbs - 825 kg	50/65	18
DRP-B 210	82.68" - 210 cm	15.75" - 40 cm	1,884 Lbs - 855 kg	52/70	24
DRP-B 240	94.49" - 240 cm	15.75" - 40 cm	2,006 Lbs - 910 kg	56/75	24
LRP-B 210	82.68" - 210 cm	15.75" - 40 cm	4,012 Lbs - 1.820 kg	85/100	24
LRP-B 240	94.49" - 240 cm	15.75" - 40 cm	4,287 Lbs - 1.945 kg	92/120	24
